# EMAUX "V" Series 1.5"Top Mouth Filter

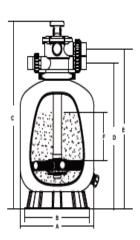

### V SERIES TOP MOUNT FILTER (V350-V700)

### **FEATURES**

- Spun-woven fiberglass construction
- Clamp lock is designed to allow 360 degree rotation to simplify installation
- Top diffuser ensures even distribution of water over the top of the sand bed
- Large pressure sand / water drain for rapid winterising or servicing
- Materials used are dependable, non corrosive and are suitable for all weather performance
- Easy to use multi-port valve with simple to use lever action
- Water drain assembly for easy maintenance
- UV resistant tank allows the filter to work under direct sunlight

### FUNCTIONS: Refer to 6-Way Multi-port Valve

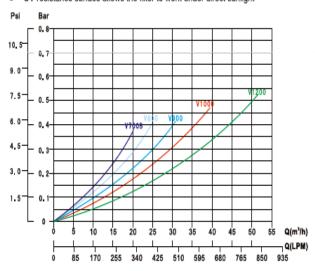

Maximum Working Pressure 250kPa/36psi/2.5bar
Factory Testing Pressure 400kPa/58psi/4.0bar
Maximum Water Temperature 43°C(109°F)
Size of Silica Sand 0.5-0.8mm
Maximum Filtration Velocity 50m³/h/m²

# EMAUX "V" series 2.0" Top Mount Filter

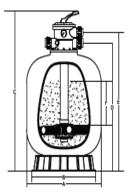

### V SERIES TOP MOUNT FILTER (V700B-V1200)

### **FEATURES**

- Made of fiberglass
- . Top diffuser ensures even distribution of water over the top of the sand bed
- . Large sand / water drain for rapid winterizing or servicing
- Materials used are dependable, non corrosive and are suitable for all weather performance
- Easy-to-use water drain plug and multi-port valve lets you select any of the valves / filter operation with a simple lever-action
- UV resistance surface allows the filter to work under direct sunlight

### FUNCTIONS: Refer to 6-Way Multi-port Valve

Maximum Working Pressure 250kPa/36psi/2.5bar Factory Testing Pressure 400kPa/58psi/4.0bar

Size of Silica Sand 0.5-0.8mm

Maximum Filtration Velocity 50m³/h/m²

Maximum Water Temperature 43°C(109°F)

# **EMAUX "S" Series Side Mouth Filter**

# Water for life and leisure V/S Series Sand Filter

### "S" Series Fiberglass Side Mount Filter

### **Highlight Features:**

- Suggested Installation: Domestic In-ground and above ground pool / hot spa tub
- Max operating pressure 36 psi / 2.5 bar
- Max temperature of 43°c (109 °F)
- Universal standard of union connection provided
- Suggested size of media: 0.5-0.8mm

### FEATURES

Robbin-wound fiberglass reinforced tank is still the most popular standard in the industry after all. With UV-resistant surface finish, it is able to operate under prolong sunlight for years of reliability. Transparent lid is designed for easy inspection of sand bed. "S" Series (S450-S1200) filters are equipped with a six-position, 1.5", 2" & 2.5" multiport valve and ABS laterals.

### **BIOLOGICAL FILTRATION SYSTEM**

The product has a new filtration system and a good biological filtration effect. Equipped with a high efficient EPH Pump, the new biological filter can quickly filter the excreta of fish and impurities. The unique multi-functional cylinder head design makes your operation more convenience.

This product is suitable for koi pond, waterscape pool, aquarium and other places. The installation and operation is very simple and the function is very complete. It is also environmental friendly with good filtration and backwash effect. It changed the traditional sand tank agglomeration problem. It is not only design with fine and modern appearance but also minimizes the size of the filtration system compare to the traditional.

### About Physical Filtration

The most obvious feature of Biological Filtration is the physical filtration. When the water passes through the filter cylinders, large size dirt will be stacked and stopped by the biological filter media. Dirt will be stick between the biological filter and filler. If the biological filter media is closely linked by water pressure, the smaller dirt will be blocked too. The biological filter media and dirt will be accumulated after certain period of time. Then the backwash function can discharge fish waste and impurities, so that the water can be purified. This is the basic principle of physical filtration.

Biological filtration refers to the breeding of beneficial bacteria inside the cylinder attached to the filtration media after certain period of time. The formation of a thin biofilm by the beneficial bacteria can efficiently convert the ammonia and industrial nitrate inside the filter into nitrate and then digested.

### **EMAUX EMD Series In Ground Filtration Combo**

# EMD Series In-Ground Filtration Combo

# **FEATURES**

- The enclosure is made of glass-fibre-enhanced plastic, which is durable and resistive to corrosion, rust, low temperature and UV
- Suitable for pools of different shapes and sizes
- The automated timer eliminates the need of professional staff for maintenance
- The enclosure is water-tight and can drain water automatically
- Eliminates the need for building plant room that saves time and labor
- Installation within hours
- Side Mount Filter, Chlorine Feeder, Pump with Pre-filter, Submersible pump to drain out water from tub
- Lights will turn on automatically when the cover is open, which makes it suitable for night time operation

# **ADVANTAGES**

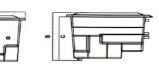

- Save on Construction cost & Time
  - Quick Installation
    - Fully Automatic •
- Convenient Night time Operation •

# SPACE OPTIMIZATION

POOL VOLUME in Litres	PLANT ROOM in Sq.	
20 - 60 M <sup>3</sup>	36	20
60 - 90 M <sup>3</sup>	64	25
90 - 130 M <sup>3</sup>	81	30

Maximum Working Pressure	250kPa/36psi/2.5bar

### THE CLEAR CHOICE IN WATER TECHNOLOGY

### SB SERIES PUMP

### FEATURES

- Asynchronous, Two poles
- Class insulation:130
- IPX5 Waterproof Standard
- Overload Protector
- Built in thermal protection
- Heavy duty with ultra performance to both high and medium head installations in large - size swimming pools / commercial spa pools
- Materials used are non corrosive
- Using NSK bearing
- Ring Lock Seal design to eliminate suction leaks and to maximize suction efficiency
- External heat sink to ensure maximum cooling capability
- Available in 380V/50Hz, 220V/50Hz, 110V/60Hz
- Specially made Union to incorporate both metric & imperial measurement standard

Flow curve info based on 380V/50Hz 220V/50Hz motor

Your solution in water technology **Counter Current Jet** 

CE

Adjustable Nozzle

**Under Water** On/Off Switch

**RGB Color** Water Light

**LED White** Water Light

**Durable ABS** Structure

### **Counter Current Jet**

Perfect for smaller pools where space is limited, a counter current jet system can ensure a decent swim for swimmers of all levels.

### **Applications**

For fitness training, underwater massage and endless no-lap swimming and unecessary tumble turns.

### Features

- Powerful counter current.
- Product can be used as a single or double jet system
- with one or two pumps.

  Counter current face plate with LED Light.

  On/Off light switch mounted on the jet face plate,
- easy access when you're in the water.

  Adjust the valve to control the bubble effect.
- Water flow can be changed through the rotating jet.

# **EMAUX Water Descent**

### Your solution in water technology Water Descent

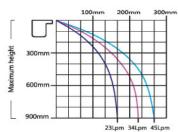

### WATER DESCENT

Available in 24 different models this water descent product line can suit different wall-mounting requirements. One of them accompanied by a small pump and filter combination provides you vibrant colourful LED waterfall which adds to your backyard visual interest, soothing sound of flowing water and moist fresh air.

### FEATURES

- Steady and even flow produces state of art artificial waterfall
- Inbuilt water-proof LEDs adds colours to water
- LED is powered by external 12V DC, which is safe and reliable
- The LEDs can be operated through panel or remote control and 10 lighting patterns are available
- Different lengths of lips in different models can fit various brick sizes for installation
- Multiple water descents can share the same controller and act in same paces

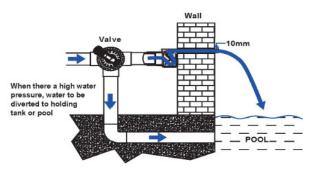

### Technical Information

APPROXIMATE PROJECTION OF SHEET OF WATER PER 300MM OF WATERFALL LENGTH

# When there a high water pressure, water to be diverted to holding tank or pool

Designed to fit existing built walls

Designed to fit single brick walls & limestone block walls during construction

# **EMAUX CP100 Series Under Water Light**

Your solution in water technology E-Lumen High Power LED Light

### **E-Lumen Underwater Light**

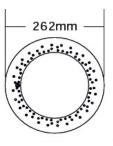

EMAUX's E-Lumen underwater light is the industrial leading Nicheless LED pool and spa light, designed to delivery brilliant and vibrant colors by a single light.

The single color options maximize the brightness of your pool. The party themes run through your pool and spa by E-Lumen 6 brilliant rich colors and 8 colors pre-programmed light show. The superior designed lens gives the easy access and higher efficiency to maintain the condition with pool cleaners.

44.5mm

IP68 (€ RoHS

Mounting Bracket

Mounting Plate

### **Product Features**

- Combines Ultra-Thin LED panel technology
- Superior geometric lens strengthen the light beam throughout the wide angle lens and lighten the entire pool
- Up to 25,000 hours lifetime, 10 times more than traditional lights
- Unlike other LED lights, E-Lumen keeps working even a single LED bulb goes out
- Change the mood of your pool and spa by pressing on/off button
- Waterproof Standard: IP68
- With 2.5m safety rubber cable

### Intelligent Design, User-Friendly Installation & Operation:

With the best LED technology, Nicheless E-Lumen mounts directly on the wall for simply installation. Only required few bolts, this is the most convenience choice of professional underwater light.

- Direct wall-mount design for simple installation
- Concrete & Vinyl Pool Compatible
- Light-duty of power usage works well with any standard/ your existing transformer
- EMAUX's lighting control box (RGB-CB) with remote allows you to manage the pool with an easygoing, relaxed lifestyle

Actual Effect

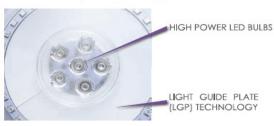

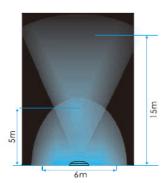

# **EMAUX AURORA Light**

### Technology & Feature

- √ 100% assurance on water proofing
- ✓ The widest angle illumination underwater light in the market
- ✓ Concrete, vinyl liner, and fiberglass pools compatible
- ✓ Effective heat sink design to enhance long LED life
- ✓ Durable ABS structure with high quality PC transparent Lid
- ✓ Latest wiring method that to allow easy and reliable wiring for replacement
- ✓ Compatible with Emaux Lighting Control Box
- √ Various color options & pre-programmed lighting effects

### Innovative Design & Engineering

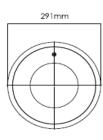

The light guide plate AURORA light is featuring a ultra-thin, low power consumption, evenly brightness, comfort visual and attractive appearance.

Emoux is a recognized global manufacturer that meets and surpasses the expectations of customers withbest-in-class products and services. With quality at the heart of everything we do, we offer specifized products to swimming pools, spas, aquatic centers, waterparks, aquaculture, public aquariums, water features and water freament projects.

# **EMAUX Salt Chlorinator**

Your solution in water technology SSC Series Salt Chlorinator

# SSC SERIES CHLORINATOR

### Saltwater Solutions

Salt Chlorinators, are an alternative means of sanitizing your pool with chlorine using the process of electrolysis.

The electrolysis process is achieved by passing the salt water solution through an electrolytic cell which converts sodium chloride (salt) in the water into chlorine gas which, when dissolved in water become sodium hypochlorite (liquid chlorine).

Safe and respecting the environment, this technology brings you :

- Relaxation: Your pool is automatically disinfected
- Safety: Reduction in chlorine storage and handling
- Comfort: Clean, safe and crystal-clear water
- Health and well-being: Therapeutic, saltwater does not irritate eyes and dry out skin

# **EMAUX Nanotech UV-C**

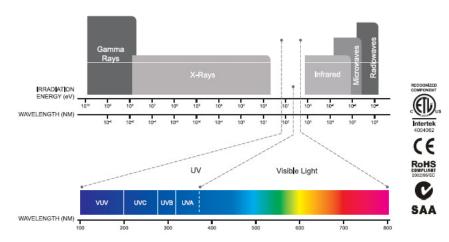

#### NANO TECH UV-C DISINFECTION SYSTEM

#### ▶ About UV-C

UV-C light at a particular wavelength 253.7nm is a very powerful germicide. It deactivates the DNA of bacteria, viruses and other pathogens and thus destroys their ability to multiply and cause disease.

Ultraviolet technology is a non-chemical approach to disinfection. In this method of disinfection, nothing is added which makes this process simple, inexpensive and requires very low maintenance. UV-C light is become increasingly favoured by the pool industry as its ability to break down and remove chloramines, which will cause eye, skin and nose irritation, and breathing difficulties.

The Nano Tech series of ultraviolet units are applied in the water treatment sector (residual and drinking water) as well as in swimming pools and ponds installations. The UV lamp provides a UV dose of 30mJ/cm2, which is sufficient for disinfection of the water and protection against 99.9% chlorine-resistant microorganisms.

#### ▶ Nano Tech UV-C Standard

These UV systems combine all the benefits listed above in a very compact design. Another advantage is that the lamps are single ended and can be easily replaced.

#### Main Applications

- · Residential swimming pools.
- · Fish ponds.
- · Drinking water residential treatments.

# **EMAUX Heat Pump**

Your solution in water technology Heat Pump

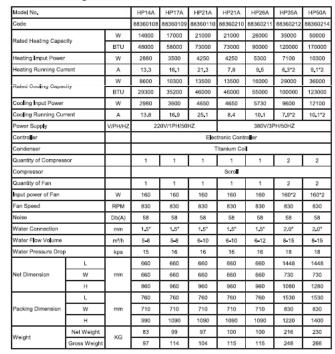

#### Performance and features

- High efficiency, With a COP value up to 5.0 our heat pumps are very efficient when transferring heat from the air to the swimming pool water. You can save as much as 80% of cost compared to an electrical heater. Long life-span.
- The heat exchanger is made of PVC & Titanium tube, which can withstand and prolong exposure to swimming pool water.
- Easy control and operation. Simply switch it on and set the desired pool water temperature.
- The system includes a micro-computer controller, allowing all operation parameters to be set. Operation status can be displayed on the controller with LCD display.
- Normal Working Environment: -10~35°C.

#### **Measuring Conditions**

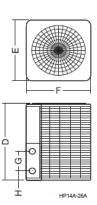

Heating: Dry bulb 24°C, Wet Bulb 19°C, Water entering temperature 27°C Cooling: Dry bulb 35°C, Wet Bulb 24°C, Water entering temperature 27°C

#### NANO TECH UV-C DISINFECTION SYSTEM

#### ▶ Nano Tech UV-C Timer

Emaux Nano-Tech UV-C Timer includes an integrated TIMER which accurately monitors the operating hours of the UV-C lamp. You will be reminded when the lamp must be replaced.

#### Advantages of the Nano-Tech UV-C Timer

- · User-friendly control pad with time clock and time meter display.
- · Integrated adjustable time meter for the UV-C lamp.
- · Digital indication when the lamp needs replacing.

## Main Applications

- · Residential swimming pools.
- · Fish ponds.
- Drinking water residential treatments.

Notes "T": Timer

# ▶ Nano Tech UV-C With Amalgam Lamps And Flow Switch

The amalgam lamps set between the low pressure and medium pressure UV applications, by combining high efficiencies with relative high power densities operating in a broad temperature range.

The amalgam version includes a flow switch which will cut-off the lamp power to protect the system from over-heating when the water flow is lower than required.

By applying a special coating technology, we are able to guarantee a maintenance of 85% after 12,000 hours operating in a broad temperature range.

Optional Timer version is included.

#### Main Applications

- · Municipal drinking water treatment systems.
- · Municipal waste water treatment systems.
- · Process water treatment units.
- · Swimming pool treatment systems.

# **EMAUX Automatic Cleaner**

# THE CLEAR CHOICE IN WATER TECHNOLOGY

#### CE 306 Automatic Pool Cleaner

The unique design of EMAUX Automatic Pool Cleaner is our outstanding cleaning device with suction function which ensures trouble-free operation. The power suction helps in the scrubbing of the wall and floor without the any supervision need. Cleaning the pool has never been so easy!

#### Integrated Design

EMAUX Automatic Pool Cleaner is designed in a high standard with quality material that enhances the durability. The special pleated seal maximize the cleaning performance and the excellent adhesion enables the scrubbing of the entire surface of the pool.

#### Designs for cleaning your pool

For any size, shape and construction of your in-ground or above ground pool, EMAUX Automatic Pool Cleaner assist in the entire cleaning process. It works by simply attaching to your skimmer or the dedicated vacuum line where the suction power of the Cleaner will climbs and cleans the floor and wall.

#### Features

- User-friendly and easy installation in a minute
- Suitable for domestic in-ground pool and above ground pool
- Quiet and fast cleaning
- No electricity needed with the use of the vacuum suction from the existing filtration unit

## Accessories included:

- 1. 1x Cleaner Main Body
- 2. 1x Nut for Hose
- 3. 1x Hose weights
- 4. 1 x Automatic Regulator Valve
- 5. 1x Hose cone
- 1x Roller bumper strap
- 1x Pleated seal
- 8. 13x 0.8m hose
